Installation Instructions for Windows

If you are using the purchase coupon to download your software, please make sure to exactly follow the instructions that were included with the coupon. The **Coupon Code** must be entered exactly as it appears. Once it is entered, please select **Apply Coupon**. If the purchase amount does not "zero-out", then that means that coupon code was entered incorrectly, so enter it again very carefully. Once the coupon has been activated, you will not be able to use it again.

Some important tips which should help you to navigate through the next phase of the download process **Proceed to Checkout**:

- Set up your **email and password** when prompted and keep it in a safe place.
- Complete all questions during this process including **Billing Information**.
- Once you have completed this area, click on **Place Order**.
- During the next screens you, will be able to verify your customer information and product that you have purchased.
- At the bottom of the final screen, you will see options for downloading your software - **select either Windows or Mac** download. Note that your **License Key** is also included on this page, along with the Status showing **Single Download.**
